  - Release 6.5.0.1 October 11, 2018
  - Release 6.5.0.0 September 29, 2018

#### Introduction

Stonebranch provides product maintenance in the form of updated product installation packages. This document lists the product installation package maintenance history for Universal Controller 6.5.x.

#### Note

For Universal Controller 6.5.x, applying maintenance refers to the increase from a currently installed 6.1.x, 6.2.x, 6.3.x, 6.4.x, or 6.5.x version of the Controller to a later 6.5.x version of the Controller (for example, increase Controller 6.1.3.1 to Controller 6.5.1.0).

# **Product Packaging**

A package maintenance level is incremented when the package changes or the package installation changes.

Stonebranch changes product version, release, or modification identifiers at its discretion when it deems an appropriate number of enhancements or capabilities have been introduced to warrant the change.

#### Versioning

Package version numbers are comprised of four numeric identifiers: version, release, modification level, and maintenance level.

For example, for Universal Controller 6.5.1.0:

- 6 = Version 6
- 5 = Release 5
- 1 = Modification Level 1
- 0 = Maintenance Level 0

#### **Packaging Methods**

The Universal Controller 6.5.x packages are provided in formats appropriate for the target platforms.

See Installation, Upgrade, and Applying Maintenance for information on installing, upgrading, and applying maintenance to the Universal Controller.

# **Package Maintenance Levels**

This section identifies the changes included in Universal Controller 6.5.x.

#### Release 6.5.1.0 - October 22, 2018

Change ID	Description
B-09928	Add Email Options in PeopleSoft Task.
B-09929	Add Process Distribution Options in PeopleSoft Task.
D-09346	Runtime Parameters are not deleted when changing PeopleSoft Task Command field from "Schedule Job".
D-09398	PeopleSoft Task with multiple RunTime Parameters generates invalid XML for the UPPS Submit Process request.
D-09399	Scheduled report for Stored Procedure Task Instance "Parameters" fails with "Can't find resource for bundle java.util.PropertyResourceBundle, key ops_exec_stored_proc_param.label".
D-09400	Scheduled report for PeopleSoft Task/Task Instance "RunTime Parameters" fails with "Can't find resource for bundle java.util.PropertyResourceBundle, key ops_exec/task_peoplesoft_rt_param.label".
D-09405	PeopleSoft Task Instance in Undeliverable status does not get queued when agent becomes available.

### Release 6.5.0.1 - October 11, 2018

Change ID	Description
D-09393	Custom Day with Relative Repeating using Last gives incorrect values.

#### Release 6.5.0.0 - September 29, 2018

Change ID	Description
E-01227	Add Network Alias distribution type for Agent Clusters. (B-09714, B-09719, B-09730, B-09836).
B-03355	Add Wait For Output option when retrieving output automatically (for use by successor tasks).

B-03356	Add function capabilities to retrieve predecessor task output.	
B-04705	Add OpenLDAP support for LDAP synchronization (LDAP Refresh).	
B-05134	Allow to Retrieve Output from the Output tab on a Task Instance.	
B-05616	Web Service - Enhanced Task Instance Status Display Information.	
B-07358	Custom Days (Relative Repeating Date) Add Nth value to When field.	
B-08833	Add User Preference to configure default visibility of Metadata section in record Details.	
B-08837	Provide a Refresh button on the Details view (Show Details) next to the Print button.	
B-09194	Code enhancement to consolidate common constants into a shared constants class.	
B-09215	Code enhancement to break RPC handlers into feature specific classes for readability and maintainability.	
B-09217	Code enhancement to break out utilities into feature specific classes for readability and maintainability.	
B-09237	Allow a Refresh icon in Forecast Calendar.	
B-09322	Web Service API: List All Workflows That a Task Belongs To.	
B-09556	Implement newer, more secure method of passing Credentials between Controller and UAG.	
B-09715	Add Notification capabilities for Agent Clusters.	
B-09720	Web Service API - Agent Cluster Resolve Command.	
B-09737	Upgrade user interface framework libraries.	
B-09738	Upgrade GWT library dependency.	
B-09739	Incorporate the display value of selected bits for bitmask fields when showing differences in Audit record rather than displaying only the raw bitmask value.	
B-09740	Upgrade apache commons-lang library dependency from 3.3.2 to 3.7.	
B-09793	Remove length limitation for LDAP group and user filters.	
B-09801	Increase size of Credentials Version window to remove scrollbar.	
B-09811	Increase size of Custom Day Version window to remove scrollbar.	
B-09843	Increase the Accept Bundle lock threshold.	
B-09858	Integration of new OMS client library for SSL/TLS client authentication.	
B-09868	Highlight today's date in the user's time zone on the Forecast Calendar.	
B-09902	Allow any SQL State for Error Code 8642 on SQL Server to be treated as a Transient Exception.	
D-09107	LDAP - Filtering indirect Users/Groups by Target OUs should ignore case.	
D-09167	Using the "Enter" key to end editing of the "Bundle Exclude On Existence Picker Default" property does not always change the property as intended, depending on change and browser.	

D-09279 Web Service APIs Trigger Now and Launch Task, do not return UUID in command response when Web Service invoked from Passive node.  D-09279 Enable STARTTLS is missing from Email Connection List.  D-09280 Dashboard Delete confirmation message should end in question mark (?*) not period (.).  D-09281 Dashboard Visibility "Visible To' drop-down options cannot be selected in Internet Explorer 11.  D-09284 Cannot re-use dashboard name, until Dashboards tab to-opened, after deleting a dashboard under specific scenario.  D-09285 Next Schedule Time is cleared after updating an enabled Time trigger to use a "Less" Date Adjustment.  D-09286 Local Custom Day Version form should not have Restore Version button and menu item.  D-09288 Agent Cluster and Broadcast Cluster fields should not be shown for z/OS tasks on the Forecast details form.  D-09304 Read-only reference form items not working for version fields.  D-09305 Heartbeat threads from Agents should be processed even if Active Node is paused.  D-09306 Components of Composite Trigger are gone when using JSON PUT Web Service Task to update the trigger.  D-09310 taskPeoplesoft ds file - there are a couple of references to SAP in the file.  D-09312 Agent/Agent Cluster Acquired fields appearing on non-agent based task instance Show Details report, twice.  D-09322 Promotion History Items related list does not show list count.  D-09323 Report description column on MS SQL Service rolly 100 characters, compared to 200 characters for Oracle and MySQL.  D-09329 Web Service - Got 406 Not Acceptable error when Remove a Custom Day from a Calendar with Header accept-application/json.  D-09330 Deleting a User - Cache - If a user is created with the same name as the previous deleted user the roles/permissions are being retained.  D-09341 Deleting a User - Cache - If a user is created with the same name as the previous deleted user the roles/permissions are being retained.  D-09353 Forecast does not honor the Override Inherited Calendar in the workflow when forecast from the pas	D-09239	Open/Open In Tab for records from report on Task Instance Run Criteria table should not be exposed as they are not currently supported and produce an error.
D-09280 Dashboard Delete confirmation message should end in question mark (?*) not period (.). D-09283 Dashboard Visibility "Visible To" drop-down options cannot be selected in Internet Explorer 11. D-09284 Cannot re-use dashboard name, until Dashboards tab re-opened, after deleting a dashboard under specific scenario. D-09285 Next Schedule Time is cleared after updating an enabled Time trigger to use a "Less" Date Adjustment. D-09286 Local Custom Day Version form should not have Restore Version button and menu item. D-09287 Agent Cluster and Broadcast Cluster fields should not be shown for z/OS tasks on the Forecast details form. D-09288 Agent Cluster and Broadcast Cluster fields should not be shown for z/OS tasks on the Forecast details form. D-09309 Heartbeat threads from Agents should be processed even if Active Node is paused. D-09300 Components of Composite Trigger are gone when using JSON PUT Web Service Task to update the trigger. D-09310 taskPeoplesoft.ds file - there are a couple of references to SAP in the file. D-09317 Agent/Agent Cluster Acquired fields appearing on non-agent based task instance Show Details report, twice. D-09328 Promotion History Items related list does not show list count. D-09329 Promotion History Items related list does not show list count. D-09329 Label is missing for Task Run Criteria Specific Day(s) in the Show Details Report. D-09329 Web Service - Composite Trigger Create/Update JSON Web Service does not create Components when payload has components. D-09330 Web Service - Got 406 Not Acceptable error when Remove a Custom Day from a Calendar with Header accept-application/ison. D-09340 Deleting a User - Cache - If a user is created with the same name as the previous deleted user the roles/permissions are being retained. D-09341 Discopption trying to convert byfel] format to object when premote definitions from 6460/6470 to 6500. D-09342 Discopption trying to convert byfel] format to object when premote definitions from 6460/6470 to 6500. D-09343 The promotion transformation	D-09270	Web Service APIs Trigger Now and Launch Task, do not return UUID in command response when Web Service invoked from Passive node.
D-09283 Dashboard Visibility "Visibile To" drop-down opions cannot be selected in Internet Explorer 11.  D-09284 Cannot re-use dashboard name, until Dashboards tab re-opened, after deleting a dashboard under specific scenario.  D-09285 Next Schedule Time is cleared after updating an enabled Time trigger to use a "Less" Date Adjustment.  D-09286 Local Custom Day Version form should not have Restore Version button and menu item.  D-09298 Agent Cluster and Broadcast Cluster fields should not be shown for z/OS tasks on the Forecast details form.  D-09399 Read-only reference form items not working for version fields.  D-09390 Heartbeat threads from Agents should be processed even if Active Node is paused.  D-09300 Components of Composite Trigger are gone when using JSON PUT Web Service Task to update the trigger.  D-09310 taskPeoplesoft.ds file - there are a couple of references to SAP in the file.  D-09317 Agent/Agent Cluster Acquired fields appearing on non-agent based task instance Show Details report, twice.  D-09322 Promotion History Items related list does not show list count.  D-09323 Label is missing for Task Run Criteria Specific Day(s) in the Show Details Report.  D-09329 Report description column on MS SQL Server only 100 characters, compared to 200 characters for Oracle and MySQL.  D-09329 Web Service - Composite Trigger Create/Update JSON Web Service does not create Components when payload has components.  D-09330 Web Service - Got 406 Not Acceptable error when Remove a Custom Day from a Calendar with Header accept-application/json.  D-09341 (DException trying to convert byte] format to object when promote definitions from 6460/8470 to 5500.  D-09342 (DException trying to convert byte] format to object when promote definitions from 6460/8470 to 5500.  D-09343 The promotion transformation is not checking if Late Start, Late Finish, or Early Finish are enabled when determining the minimum release level.  D-09355 Forecast does not honor the Override Inherited Calendar in the workflow when forecast from the	D-09279	'Enable STARTTLS' is missing from Email Connection List.
D-09284 Cannot re-use dashboard name, until Dashboards tab re-opened, after deleting a dashboard under specific scenario.  D-09285 Next Schedule Time is cleared after updating an enabled Time trigger to use a "Less" Date Adjustment.  D-09287 Local Custom Day Version form should not have Restore Version button and menu item.  D-09288 Agent Cluster and Broadcast Cluster fields should not be shown for z/OS tasks on the Forecast details form.  D-09304 Read-only reference form items not working for version fields.  D-09305 Heartbeat threads from Agents should be processed even if Active Node is paused.  D-09306 Components of Composite Trigger are gone when using JSON PUT Web Service Task to update the trigger.  D-09310 taskPeoplesoft, ds file - there are a couple of references to SAP in the file.  D-09311 Agent/Agent Cluster Acquired fields appearing on non-agent based task instance Show Details report, twice.  D-09322 Promotion History Items related list does not show list count.  D-09323 Label is missing for Task Run Criteria Specific Day(s) in the Show Details Report.  D-09328 Report description column on MS SQL Server only 100 characters, compared to 200 characters for Oracle and MySQL.  D-09329 Web Service - Composite Trigger Create/Update JSON Web Service does not create Components when payload has components.  D-09330 Web Service - Gdt 406 Not Acceptable error when Remove a Custom Day from a Calendar with Header accept-application/yson.  D-09340 Eleting a User - Cache - If a user is created with the same name as the previous deleted user the roles/permissions are being retained.  D-09341 Interpretation trying to convert byte[] format to object when promote definitions from 646/06470 to 6500.  D-09343 The promotion transformation is not checking if Late Start, Late Finish, or Early Finish are enabled when determining the minimum release level.
