STONEBRANCH

UECLoad Utility 3.2.0
Quick Reference

Usage

uecload {ACTION} [EVENTS] USER HOST [OPTIONS] [BROKERDEF]

uecload { -help | -version }

Format

There is a long form and, for most options, a short form available for specifying each option on the command line. The long form is not case-sensitive; the short form is case-sensitive.

Options must be prefixed with a dash (**-**) character. If an option value is specified, the option and its value must be separated by at least one space.

ACTION　　　{-add | -delete | -list | -export}

Long Form	Short Form	Description
-add	n/a	Add agent definitions to the UEC.
-delete	n/a	Delete agent definitions to the UEC.
-export	n/a	Output the described agent definitions in a format to be used by a agent definition file.
-list	n/a	Output the described agent definitions in a user-friendly format.

EVENTS　　　[-arcfile] [-format] [-export_delete] [-stime] [-etime]
The following parameters are used when using the -export EVENTS action.

Long Form	Short Form	Description
-arcfile *filename*	n/a	Name of an archived file to retrieve for export.
-etime *enddate*[,*endtime*]	-s *enddate* [,*endtime*]	Ending date and time selection criteria of the export of the UEC events database table, which is required for the -export EVENTS action.
-export_delete	n/a	Specification to delete exported records from the UEC events database table upon -export EVENTS action.
-format *format*	n/a	Format of the output file from the -export EVENTS action.
-stime *startdate*[,*starttime*]	-s *startdate* [,*starttime*]	Starting date and time selection criteria of the export of the UEC events database table, which is required for the -export EVENTS action.

USER　　　[-userid [-pwd]] [-port]

Long Form	Short Form	Description
-port *port*	-p *port*	TCP port on which to send the command.
-pwd *password*	-w *password*	Password for the user identifier specified by -userid.
-userid *user*	-u *user*	User identifier that is used to sign on to the UEC.

HOST   [-port]

Long Form	Short Form	Description
-port *port*	-p *port*	TCP port on which to send the command.

OPTIONS   [-broker_desc] [-broker_host] [-broker_name] [broker_port] [-codepage] [-level] [-deffile] [-file | -encryptedfile] [{ -help | -version }]

Long Form	Short Form	Description
-broker_desc *description*	n/a	Description of the Broker being added or deleted in the UEC database.
-broker_host *address*	n/a	Host network address of the Broker being added, deleted, or viewed in the UEC database.
-broker_name *name*	n/a	Unique name of a Broker being added, deleted, or viewed in the UEC database.
-broker_port *port*	n/a	TCP/IP port of the Broker being added, deleted, or viewed in the UEC database.
-codepage *codepage*	-t *codepage*	Character code page that is used to translate text data received and transmitted over the network.
-deffile *filename*	n/a	Broker definition file (deffile), which is used to specify multiple Broker definitions to be added or deleted to the UEC. When used with the **-export** option, this is the name of the output file.
-encryptedfile *filename* / *ddname*	-x *filename* / *ddname*	File name / ddname of a file / data set containing encrypted values for command line option parameters.
-file *filename* / *ddname*	-f *filename* / *ddname*	File name / ddname of a file / data set containing plain text values for command line option parameters.
-help	-h	Writes help file.
-level *level*	-l *level*	Level of messages to write.
-port *port*	-p *port*	TCP port on which to send the command.
-pwd *password*	-w *password*	Password for the user identifier specified by -userid.
-userid *user*	-u *user*	User identifier that is used to sign on to the UEC.
-version	-v	Writes program version information and copyright.

BROKERDEF   [-broker_desc] [-broker_host] [-broker_name] [broker_port]

Long Form	Short Form	Description
-broker_desc *description*	n/a	Description of the Broker being added or deleted in the UEC database.
-broker_host *address*	n/a	Host network address of the Broker being added, deleted, or viewed in the UEC database.
-broker_name *name*	n/a	Unique name of a Broker being added, deleted, or viewed in the UEC database.
-broker_port *port*	n/a	TCP/IP port of the Broker being added, deleted, or viewed in the UEC database.
